women and age on the uk stage surveys representations of the figure of the old woman on stage covering the experiences of aged women in the multiple realities of performance as a

character in drama as the creator of postdramatic works and as a mature professional in live theatre as well as glossing work on female age and ageing in film tv and media studies part i explores representations in live productions both of canonical plays and contemporary performance it proposes the avoidance of the word older arguing for the term aged as one that addresses a social model of ageing and examines how performances can produce age effects upon members of the audience especially aged women in analysing work by several playwrights and female performers it not only examines narrative language and character but also focuses on the embodied material interrelational and proxemical aspects of live performance it contends that avant garde and postdramatic works can generate nuanced understandings of aged femininity which both acknowledge and challenge the social restrictions placed upon old women part ii consists of four interviews with prominent and not so prominent veteran female performers over the age of 60 giving long ignored critical attention to the experience of navigating multiple performance situations in the latter years of a long life on the stage this is an essential companion for anyone interested in the role of women in theatre and performance as well as students of women s studies gender studies acting and gerontology

the essential reference for human development theory updated and reconceptualized the handbook of child psychology and developmental science a four volume reference is the field defining work to which all others are compared first published in 1946 and now in its seventh edition the handbook has long been considered the definitive guide to the field of developmental science volume 2 cognitive processes describes cognitive development as a relational phenomenon that can be studied only as part of a larger whole of the person and context relational system that sustains it in this volume specific domains of cognitive development are contextualized with respect to biological processes and sociocultural contexts furthermore key themes and issues e g the importance of symbolic systems and social understanding are threaded across multiple chapters although every each chapter is focused on a different domain within cognitive development thus both within and across chapters the complexity and interconnectivity of cognitive development are well illuminated learn about the inextricable intertwining of perceptual development motor development emotional development and brain development understand the complexity of cognitive development without misleading simplification reducing cognitive development to its biological substrates or viewing it as a passive socialization process discover how each portion of the developmental process contributes to subsequent cognitive development examine the multiple processes such as categorizing reasoning thinking decision making and judgment that comprise cognition the

scholarship within this volume and as well across the four volumes of this edition illustrate that developmental science is in the midst of a very exciting period there is a paradigm shift that involves increasingly greater understanding of how to describe explain and optimize the course of human life for diverse individuals living within diverse contexts this handbook is the definitive reference for educators policy makers researchers students and practitioners in human development psychology sociology anthropology and neuroscience
